

## Reading: Showcase your work

Congratulations on earning your Google Advanced Data Analytics Certificate! Now it's time to let the world know about the skills you gained to help advance your career and share some of the artifacts you created along the way. We recommend adding the completion of this certificate to your resume and LinkedIn® profile. Read on and follow these tips to get started.

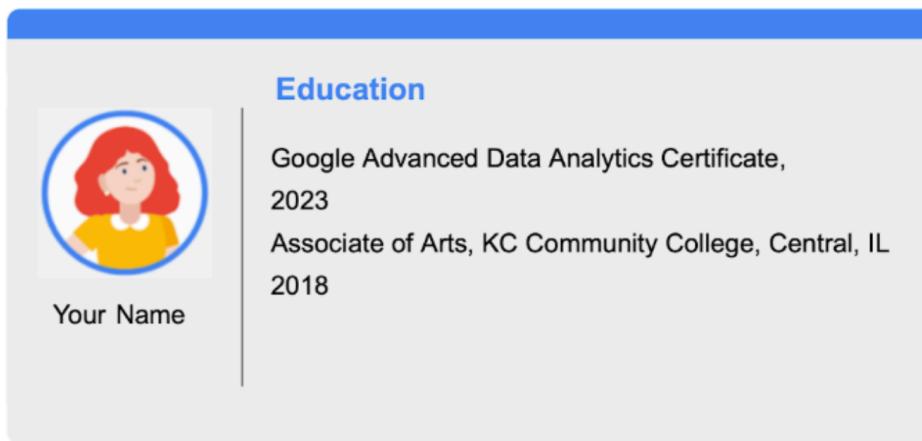

### Adding the Google Advanced Data Analytics Certificate to your resume and LinkedIn® profile

You may have already started on a data professional resume earlier in the certificate. If not, there are a variety of digital templates for creating your resume available at [Enhancv](#), [Big Interview](#), [Google Docs](#) or [Microsoft Word](#). You can find additional resume creation guidance in this lesson from [Applied Digital Skills: Start a Resume](#)

### Update your Education or Licenses and Certifications section

- To add the completion of this certificate to your resume, update your ***Education*** or ***Licenses & Certifications*** section.
- To add the completion of this certificate to the ***Licenses & Certifications*** section of your LinkedIn® profile, follow the [steps listed in this article](#).

Consider this example of how you might format your Education on your resume:

### Update your Skills section

- If applicable, update the ***Skills*** section of your resume with the skills you gained in this program. Below is a comprehensive list of the skills that this certificate was designed to help you develop. Consider adding some or all of these to your resume.

- To update the **Skills & Endorsements** section of your LinkedIn® profile, follow the [steps listed in this article](#).

Here is an example of some relevant skills that you might find on a data professional's resume.

**Skills**

- Data analysis
- Data cleaning
- Data visualization using Tableau
- Python
- Linear and logistic regression
- Hypothesis testing
- Machine learning

## Update your Summary or About section

- If you have a **Summary** section in your resume, you can include this certificate as a qualification.
- To include a summary that mentions this certificate in your LinkedIn® profile, update your **About** section by following the [steps listed in this article](#).

Here is an example of a professional summary:

Versatile individual with experience in exploratory data analysis, data visualization, hypothesis testing, logistic regression, and machine learning models like Naive Bayes and decision trees. Excellent understanding and proficiency of platforms for effective data analysis, cleaning, and visualization, including spreadsheets, Python, and Tableau. Strong communication, organizational, and analytical skills. Recently completed the Google Advanced Data Analytics Certificate—a rigorous, hands-on program that covers the entire scope of the data analysis and data modeling process.

**Professional Summary**

Versatile individual with experience in exploratory data analysis, data visualization, hypothesis testing, logistic regression, and machine learning models like Naive Bayes and decision trees. Excellent understanding and proficiency of platforms for effective data analysis, cleaning, and visualization, including spreadsheets, Python, and Tableau. Strong communicating, organizational, and analytical skills. Recently completed the Google Advanced Data Analytics Certificate—a rigorous, hands-on program that covers the entire scope of the data analysis and data modeling process.

## **Add your badge**

Access the next course item to learn how to claim your certificate completion badge and add it to your LinkedIn® profile!
